

# CVE-2022-46830

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                           |
|------------------------|-----------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2022-46830                                                                                            |
| <b>State</b>           | PUBLIC                                                                                                    |
| <b>Assigner</b>        | security@jetbrains.com                                                                                    |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                              |
| <b>Published</b>       | 2022-12-08 18:15:00 UTC                                                                                   |
| <b>Updated</b>         | 2022-12-12 16:35:00 UTC                                                                                   |
| <b>Description</b>     | In JetBrains TeamCity between 2022.10 and 2022.10.1 a custom STS endpoint allowed internal port scanning. |

## Risk And Classification

**Problem Types:** CWE-918

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor                    | Product                  | Version | Update | Edition | Language |
|-------------|---------------------------|--------------------------|---------|--------|---------|----------|
| Application | <a href="#">Jetbrains</a> | <a href="#">Teamcity</a> | All     | All    | All     | All      |
