

# CVE-2022-48261

[MITRE](#)[NVD](#)[CVE.ORG](#)[JSON API](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                                |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2022-48261                                                                                                                 |
| <b>State</b>           | PUBLIC                                                                                                                         |
| <b>Assigner</b>        | psirt@huawei.com                                                                                                               |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                   |
| <b>Published</b>       | 2023-02-27 18:15:00 UTC                                                                                                        |
| <b>Updated</b>         | 2023-08-08 14:21:00 UTC                                                                                                        |
| <b>Description</b>     | There is a misinterpretation of input vulnerability in BiSheng-WNM FW 3.0.0.325. Successful exploitation of this vulnerability |

## Risk And Classification

### Problem Types: CWE-436

## NVD Known Affected Configurations (CPE 2.3)

| Type             | Vendor                 | Product                              | Version   | Update | Edition | Language |
|------------------|------------------------|--------------------------------------|-----------|--------|---------|----------|
| Hardware         | <a href="#">Huawei</a> | <a href="#">Bisheng-wnm</a>          | -         | All    | All     | All      |
| Operating System | <a href="#">Huawei</a> | <a href="#">Bisheng-wnm Firmware</a> | 3.0.0.325 | All    | All     | All      |
