

# CVE-2023-1260

[MITRE](#)[NVD](#)[CVE.ORG](#)[Print: PDF](#)

## Summary

|                        |                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>CVE</b>             | CVE-2023-1260                                                                                                               |
| <b>State</b>           | PUBLIC                                                                                                                      |
| <b>Assigner</b>        | secalert@redhat.com                                                                                                         |
| <b>Source Priority</b> | CVE Program / NVD first with legacy fallback                                                                                |
| <b>Published</b>       | 2023-09-24 01:15:00 UTC                                                                                                     |
| <b>Updated</b>         | 2023-12-15 18:19:00 UTC                                                                                                     |
| <b>Description</b>     | An authentication bypass vulnerability was discovered in kube-apiserver. This issue could allow a remote, authenticated att |

## Risk And Classification

**Problem Types:** NVD-CWE-Other

## NVD Known Affected Configurations (CPE 2.3)

| Type        | Vendor     | Product                      | Version | Update | Edition | Language |
|-------------|------------|------------------------------|---------|--------|---------|----------|
| Application | Kubernetes | Kube-apiserver               | -       | All    | All     | All      |
| Application | Redhat     | Openshift Container Platform | 4.10    | All    | All     | All      |
| Application | Redhat     | Openshift Container Platform | 4.11    | All    | All     | All      |
| Application | Redhat     | Openshift Container Platform | 4.12    | All    | All     | All      |
| Application | Redhat     | Openshift Container Platform | 4.13    | All    | All     | All      |
